EDUCATION

University of Waterloo

Bachelor of Computer Science, AI Specialization

Waterloo, ON

Sept. 2022 – August 2027

Relevant Coursework: Human-Computer Interaction, UI, Application Development, AI, ML, Neural Networks

EXPERIENCE

Software Developer

Jan. 2026 – Apr. 2026

Bleacher Rentals

Simcoe, ON

- Designed, developed, and deployed a cross-platform mobile application from the ground up for iOS and Android in React Native, enabling real-time communication between dispatch and drivers regarding trips, schedules, and work updates
- Collaborated directly with business stakeholders, operations staff, and end users to gather requirements, prioritize features, and plan development sprints
- Conducted research and prototyping of AI-assisted routing systems to optimize driver-to-trip assignment and improve operational efficiency

AI Software Developer

May 2025 – Aug. 2026

Impact Assessment Agency of Canada

Toronto, ON

- Planned, developed, tested, and deployed multiple AI-driven products to improve internal workflows and operational efficiency
- Built a targeted document search application using retrieval-augmented generation (RAG) with tools such as Lovable, Claude Code, and MongoDB
- Conducted research on emerging AI models and tools, providing regular updates and recommendations to keep the agency current with industry advancements

Software Developer

Jan. 2024 – Apr. 2024

Softchoice Corp.

Toronto, ON

- Developed and customized ServiceNow ticketing system features using JavaScript, streamlining internal processes and issue resolution
- Collaborated with the managed services team in an Agile environment to deliver monthly releases to the customer-facing platform
- Conducted testing and validation of new enhancements to ensure reliability, performance, and quality before deployment

PROJECTS

RUBY Period Tracker App | *Kotlin, Firebase, Jetpack Compose, SQL*

Jan. 2025 – May 2025

- Developed an Android application as part of a team to deliver personalized nutrition recommendations
- Integrated database-driven logic to tailor recommendations based on user-logged symptoms and menstrual cycle phases
- Conducted user research by engaging with potential users to identify needs and inform feature development
- Led the project team, coordinating development efforts and guiding product direction

LEADERSHIP ROLES

President

Sept. 2024 – Dec. 2025

Waterloo SERVE Volleyball Club

Waterloo, ON

- Organized and led tournaments and drop-in volleyball sessions for a club with 500+ members
- Led a team of 15 executives to manage club operations, events, and strategic planning
- Hosted 3 university-wide volleyball tournaments, each spanning 14 hours and attracting 300+ participants
- Grew club membership from 300 to 500+ members through enhanced programming and outreach initiatives

TECHNICAL SKILLS

Languages: Python, Javascript, Typescript, SQL, Kotlin, HTML, CSS

Frameworks: Node.js, React, React Native

Developer Tools: Git, Docker, VS Code, Android Studio

Libraries: pandas, NumPy, PyTorch
